

**TOPICS**  
**of practical classes on the discipline «Internal Diseases»**  
**for the 6-th year students of the Medical Faculty for International Students**  
**for the subinternship “General medical practice”**

1. Differential diagnosis and treatment for bronchial obstruction syndrome .
2. Differential diagnosis and treatment for pulmonary infiltration syndrome.
3. Differential diagnosis and treatment in the presence of fluid in the pleural cavity, pleural diseases, acute and chronic respiratory failure.
4. Differential diagnosis and treatment of interstitial lung diseases. .
5. Differential diagnosis and treatment of suppurative lung diseases. Differentiated antibacterial therapy for lung diseases .
6. Differential diagnosis of chest pain. Diagnosis and treatment of chronic coronary syndromes
7. Diagnosis and treatment of acute coronary syndrome without ST-segment elevation.
8. Differential diagnosis and treatment of myocardial infarction
9. Differential diagnosis and treatment of arterial hypertension
10. Differential diagnosis and differentiated treatment of cardiac arrhythmias .
11. Differential diagnosis and differentiated treatment of cardiac conduction disorders
12. Differential diagnosis of cardiomegaly. Diagnosis and treatment of non-coronary myocardial lesions.
13. Diagnosis and treatment of endocardial and pericardial lesions
14. Differential diagnosis of dyspnea and edema syndrome. Differentiated treatment of chronic heart failure
15. Differential diagnosis and treatment of diseases of the esophagus
16. Differential diagnosis and treatment of gastroduodenal zone diseases
17. Differential diagnosis and treatment of chronic hepatitis and liver cirrhosis
18. Differential diagnosis of jaundice and hepatosplenomegaly
19. Differential diagnosis and treatment of pancreatic diseases, in abdominal pain syndrome
20. Differential diagnosis and treatment of inflammatory bowel diseases, in irritable bowel syndrome
21. Diagnostic methods for rheumatic diseases. Modern treatment options for rheumatic diseases
22. Differential diagnosis and treatment of rheumatoid arthritis and osteoarthritis
23. Differential diagnosis and treatment of spondyloarthritis, arthritis associated with infection and erythema nodosum
24. Differential diagnosis and treatment of microcrystalline arthritides.  
Differential diagnosis and treatment of osteoporosis
25. Differential diagnosis of connective tissue systemic diseases. Antiphospholipid syndrome.
26. Differential diagnosis of systemic vasculitides
27. Principles of treatment for systemic connective tissue diseases and systemic vasculitides

28. Diagnostic capabilities of laboratory and instrumental research methods in nephrology. Differential diagnosis and treatment of tubulointerstitial kidney diseases
29. Differential diagnosis and treatment of nephritic syndromes Differential diagnosis in nephrotic syndrome, principles of treatment
30. Renal lesions in diabetes mellitus, systemic connective tissue diseases, systemic vasculitis, gout, multiple myeloma. Differential diagnosis in chronic kidney disease, treatment principles.
31. Differential diagnosis and treatment in anemic syndrome
32. Differential diagnosis and treatment of leukemoid reactions, hemoblastoses
33. Differential diagnosis and treatment of hemorrhagic diatheses.

Approved

at the meeting of the Department of Internal Medicine,  
Gastroenterology and Nutrition with  
training and advanced training courses  
August 31, 2026, Registration Ng1.

Head of the Department

A.V.Adamenko
