

Criteria for assessing the results of educational activities of students in the academic discipline "Oral and Maxillofacial Pediatric Surgery " on a ten-point scale at the Department of Maxillofacial Surgery and Facial Plastic Surgery with a course of advanced training and retraining

10 (ten) points, passed:

systematized, deep and complete knowledge of all sections of the curriculum for the academic discipline "Oral and Maxillofacial Pediatric Surgery ", as well as on key issues that go beyond it;

accurate use of scientific terminology (including in a foreign language), competent, logically correct presentation of answers to questions, the ability to make well-founded conclusions and generalizations;

impeccable mastery of the tools of the academic discipline "Oral and Maxillofacial Pediatric Surgery " , the ability to effectively use them in setting and solving scientific and professional problems:

pronounced ability to independently and creatively solve complex problems in non-standard situations;

complete and deep assimilation of the basic and additional literature on the studied academic discipline "Oral and Maxillofacial Pediatric Surgery ";

the ability to freely navigate the theories, concepts and directions of the academic discipline "Oral and Maxillofacial Pediatric Surgery " and give them an analytical assessment, use the scientific achievements of other disciplines;

creative independent work in practical and laboratory classes, active creative participation in group discussions, a high level of culture in completing assignments.

9 (nine) points, passed:

systematized, deep and complete knowledge of all sections of the curriculum for the academic discipline "Oral and Maxillofacial Pediatric Surgery ";

accurate use of scientific terminology (including in a foreign language), competent, logically correct presentation of answers to questions;

mastery of the tools of the academic discipline "Oral and Maxillofacial Pediatric Surgery " , the ability to effectively use them in setting and solving scientific and professional problems;

the ability to independently and creatively solve complex problems in a non-standard situation within the framework of the curriculum for the academic discipline;

complete assimilation of the basic and additional literature recommended by the curriculum for the academic discipline "Oral and Maxillofacial Pediatric Surgery " ;

the ability to navigate the theories, concepts and directions in the academic discipline "Oral and Maxillofacial Pediatric Surgery " and give them an analytical assessment;

Systematic, active independent work in practical and laboratory classes, creative participation in group discussions, a high level of culture in completing assignments.

8 (eight) points, passed:

systematized, deep and complete knowledge of all sections of the curriculum for the academic discipline "Oral and Maxillofacial Pediatric Surgery " within the scope of the curriculum for the academic discipline "Oral and Maxillofacial Pediatric Surgery ";

use of scientific terminology (including in a foreign language), competent, logically correct presentation of answers to questions, the ability to make well-founded conclusions and generalizations;

proficiency in the tools of the academic discipline "Oral and Maxillofacial Pediatric Surgery " (methods of complex analysis, information technology techniques), the ability to use them in setting and solving scientific and professional problems; the ability to independently solve complex problems within the framework of the curriculum for the academic discipline "Oral and Maxillofacial Pediatric Surgery ";

acquisition of the basic and additional literature recommended by the curriculum for the academic discipline "Oral and Maxillofacial Pediatric Surgery ";

the ability to navigate the theories, concepts and directions in the academic discipline "Oral and Maxillofacial Pediatric Surgery " and give them an analytical assessment;

active independent work in practical and laboratory classes, systematic participation in group discussions, high level of culture in completing assignments.

7 (seven) points, passed:

systematized, deep and complete knowledge of all sections of the curriculum for the academic discipline "Oral and Maxillofacial Pediatric Surgery ";

use of scientific terminology (including in a foreign language), competent, logically correct presentation of answers to questions, the ability to make well-founded conclusions and generalizations;

mastery of the tools of the academic discipline "Oral and Maxillofacial Pediatric Surgery ", the ability to use them in setting and solving scientific professional problems;

fluency in standard solutions within the framework of the curriculum for the academic discipline "Oral and Maxillofacial Pediatric Surgery ";

acquisition of basic and additional literature recommended by the curriculum for the academic discipline "Oral and Maxillofacial Pediatric Surgery ";

the ability to navigate the main theories, concepts, and directions in the academic discipline "Oral and Maxillofacial Pediatric Surgery ", and to give their analytical assessment;

independent work in practical and laboratory classes, participation in group discussions, high level of culture in completing assignments.

6 (six) points, passed:

sufficiently complete and systematized knowledge within the scope of the curriculum for the academic discipline "Oral and Maxillofacial Pediatric Surgery ";

use of necessary scientific terminology; competent, logically correct presentation of answers to questions;

the ability to make generalizations and well-founded conclusions;

mastery of the tools of the academic discipline "Oral and Maxillofacial Pediatric Surgery " , the ability to use them in solving educational professional problems;

the ability to independently apply standard solutions within the framework of the curriculum for the academic discipline "Oral and Maxillofacial Pediatric Surgery ";

mastering the basic literature recommended by the curriculum for the academic discipline "Oral and Maxillofacial Pediatric Surgery ";

the ability to navigate the basic theories, concepts and directions in the discipline of "Oral and Maxillofacial Pediatric Surgery " and give them a comparative assessment;

active independent work in practical and laboratory classes, periodic participation in group discussions, high level of culture in completing assignments.

5 (five) points, passed:

sufficient knowledge in the scope of the curriculum of the academic discipline "Oral and Maxillofacial Pediatric Surgery ";

use of scientific terminology, competent, logically correct presentation of answers to questions, ability to draw conclusions;

proficiency in the tools of the academic discipline "Oral and Maxillofacial Pediatric Surgery " , the ability to use them in solving educational and professional problems;

the ability to independently apply standard solutions within the framework of the curriculum for the academic discipline "Oral and Maxillofacial Pediatric Surgery ";

mastering the basic literature recommended by the curriculum for the academic discipline "Oral and Maxillofacial Pediatric Surgery ";

the ability to navigate the basic theories, concepts and directions of the academic discipline "Oral and Maxillofacial Pediatric Surgery " , and give them a comparative assessment;

independent work in practical and laboratory classes, fragmented participation in group discussions, a sufficient level of culture in completing assignments.

4 (four) points, passed:

sufficient amount of knowledge within the scope of the curriculum for the academic discipline "Oral and Maxillofacial Pediatric Surgery ";

mastering the basic literature recommended by the curriculum for the academic discipline "Oral and Maxillofacial Pediatric Surgery ";

use of scientific terminology, logical presentation of answers to questions, ability to draw conclusions without significant mistakes;

proficiency in the tools of the academic discipline "Oral and Maxillofacial Pediatric Surgery " , the ability to use them in solving standard (typical) problems ;

ability to solve standard (typical) problems under the guidance of a teacher;
the ability to navigate the main theories, concepts and directions in the academic discipline "Oral and Maxillofacial Pediatric Surgery " and evaluate them;
work under the guidance of a teacher in practical laboratory classes, an acceptable level of culture in completing assignments.

3 (three) points, not passed:

insufficiently complete scope of knowledge in the curriculum for the academic discipline "Oral and Maxillofacial Pediatric Surgery " ;
knowledge of some of the basic literature recommended by the curriculum for the academic discipline "Oral and Maxillofacial Pediatric Surgery " ;
use of scientific terminology, presentation of answers to questions with significant, logical mistakes;
poor command of the tools of the academic discipline "Oral and Maxillofacial Pediatric Surgery " , incompetence in solving standard (typical) problems;
inability to navigate the basic theories, concepts, and areas of the academic discipline "Oral and Maxillofacial Pediatric Surgery " ; passivity in practical and laboratory classes, low level of culture in completing assignments.

2 (two) points, not passed:

fragmentary knowledge within the scope of the curriculum for the academic discipline "Oral and Maxillofacial Pediatric Surgery " ;
knowledge of individual literary sources recommended by the curriculum for the academic discipline "Oral and Maxillofacial Pediatric Surgery " ;
inability to use scientific terminology of the academic discipline "Oral and Maxillofacial Pediatric Surgery " , the presence of gross logical mistakes in the answer;
passivity in practical and laboratory classes, low level of culture in completing assignments.

1 (one) point, not passed:

lack of knowledge and competencies within the scope of the curriculum for the academic discipline "Oral and Maxillofacial Pediatric Surgery " , refusal to answer, failure to appear for certification without a valid reason.

Head of the Department

D.A. Hrychaniuk

Approved at a meeting of the Department of Maxillofacial Surgery and Facial Plastic Surgery with a course of advanced training and retraining, protocol No. 1 dated 28.09.2025.
