9 (nine) points – passed

systematized, deep and complete knowledge of all the curriculum sections for the Pediatric Dentistry;

the use of scientific terminology, competent, logically correct presentation of the answer to questions, the ability to make informed conclusions and generalizations;

possession of tools for the Pediatric Dentistry, the ability to use it in the formulation and solution of scientific and professional tasks;

the ability to independently solve complex problems within the framework of the curriculum in providing medical care to young patients at risk of oral diseases;

full assimilation of the basic and additional literature recommended by the university's curriculum for the Pediatric Dentistry;

the ability to navigate the theories, concepts and directions of the Pediatric Dentistry, to make an analysis;

systematic, active independent work in practical, laboratory classes, creative participation in group discussions, a high level of culture of performing tasks aimed at acquiring practical skills in the Pediatric Dentistry by students.

8 (eight) points – passed

systematized, deep and complete knowledge of all the curriculum sections for the Pediatric Dentistry;

the use of scientific terminology, competent, logically correct presentation of the answer to questions, the ability to make informed conclusions and generalizations;

possession of tools for the Pediatric Dentistry, the ability to use it in the formulation and solution of scientific and professional tasks;

the ability to independently solve complex problems within the framework of the curriculum in providing medical care to young patients with the oral diseases;

assimilation of basic and additional literature recommended by the curriculum for the Pediatric Dentistry;

the ability to navigate the theories, concepts and directions of the Pediatric Dentistry, to make an analysis;

active independent work in practical, laboratory classes, systematic participation in group discussions, a high level of culture of performing tasks aimed at acquiring practical skills in the Pediatric Dentistry by students.

7 (seven) points – passed

systematized, deep and complete knowledge of all the curriculum sections for the Pediatric Dentistry;

the use of scientific terminology, competent, logically correct presentation of the answer to questions, the ability to make informed conclusions and generalizations;

possession of tools for the Pediatric Dentistry, the ability to use it in the formulation and solution of scientific and professional tasks;

fluency in standard solutions within the framework of the curriculum for the Pediatric Dentistry;

assimilation of basic and additional literature recommended by the curriculum for the Pediatric Dentistry;

the ability to navigate the basic theories, concepts and directions of Pediatric Dentistry, to make an analysis;

independent work in practical, laboratory classes, participation in group discussions, a high level of culture of performing tasks aimed at acquiring practical skills in the Pediatric Dentistry by students.

6 (six) points – passed

sufficiently complete and systematized knowledge in the scope of the curriculum for the Pediatric Dentistry;

the use of the necessary scientific terminology, competent, logically correct presentation of the answer to questions, the ability to make generalizations and reasonable conclusions;

possession of tools for the Pediatric Dentistry, the ability to use it in solving educational and professional tasks;

the ability to independently apply standard solutions within the framework of the curriculum for the Pediatric Dentistry;

assimilation of the basic literature recommended by the curriculum for the Pediatric Dentistry;

the ability to navigate the basic theories, concepts and directions of the Pediatric Dentistry, to make an analysis;

active independent work in practical, laboratory classes, periodic participation in group discussions, a high level of culture of performing tasks aimed at acquiring practical skills in the Pediatric Dentistry by students.

5 (five) points – passed

Sufficient knowledge in the scope of the university's curriculum for the Pediatric Dentistry;

the use of scientific terminology, competent, logically correct presentation of the answer to questions, the ability to draw conclusions;

possession of tools for the Pediatric Dentistry, the ability to use it in solving educational and professional tasks;

the ability to independently apply standard solutions within the framework of the curriculum for the Pediatric Dentistry;

assimilation of the basic literature recommended by the curriculum for the Pediatric Dentistry;

the ability to navigate the basic theories, concepts and directions of Pediatric Dentistry, to make an analysis;

independent work in practical, laboratory classes, fragmentary participation in group discussions, a sufficient level of culture of performing tasks aimed at acquiring practical skills in the Pediatric Dentistry by students.

4 (four) points – passed

Sufficient knowledge in the extent of the curriculum;

full assimilation of the basic literature recommended by the curriculum;

possession of tools for the Pediatric Dentistry, the ability to use it in solving standard (typical) tasks;

the ability to solve standard (typical) tasks for providing medical care to young patients with the oral diseases under the guidance of a teacher;

the ability to navigate the basic theories, concepts and directions of the Pediatric Dentistry, to make an analysis;

work under the guidance of a teacher in practical classes, an acceptable level of culture for performing tasks aimed at acquiring practical skills in the Pediatric Dentistry by students.

3 (three) points – failed

insufficient amount of knowledge within the educational standard of higher education "Dentistry" in terms of Pediatric Dentistry;

knowledge of part of the main literature recommended by the curriculum on Pediatric Dentistry;

the use of scientific terminology, the presentation of the answer to questions with significant, logical errors;

poor knowledge of the tools of Pediatric Dentistry, incompetence in solving standard (typical) tasks;

inability to navigate the basic theories, concepts and directions of Pediatric Dentistry;

passivity in practical and laboratory classes, a low level of culture of performing tasks aimed at acquiring students' practical skills in providing dental care to children.

2 (two) points – failed

Ignorance of the discipline terminology. The presence of blunders in the responses;

knowledge of individual definitions, concepts on the section of the curriculum;

poor academic performance, passivity on the practical classes.

1 (one) point – failed

Refusal to answer;

absence of knowledge on the section of the curriculum;

use of prohibited, unauthorized materials and methods.
