

**ESSAY TOPICS FOR INTERNATIONAL STUDENTS (SPECIALTY:
STOMATOLOGY)
FOR ACADEMIC YEAR 2025/26.**

1 day:

1. Nasal septum deviation. Treatment methods.
2. Nasal bleedings. Methods to stop nose bleeding.
3. Furuncle of the nose. Complications of the nose furuncle. Diagnosis and treatment.
4. Acute rhinitises. Diagnostics and treatment.
5. Chronic rhinitises. Diagnostics and treatment.
6. Acute maxillary sinusitis. Clinical findings, diagnostics, treatment.
7. Chronic maxillary sinusitis. Clinical findings, diagnostics, treatment.
8. Orbital complications of diseases of the nose and paranasal sinuses. Clinical features, diagnosis and treatment.

2 day:

1. The role of pharyngeal lymphatic (Waldeyer's) ring. Adenoids. Diagnostics and treatment methods.
2. Acute pharyngitis. Clinical findings, diagnostics and treatment.
3. Chronic pharyngitis. Classification clinical findings, diagnostics and treatment.
4. Differential diagnostics of tonsillitis.
5. Prophylactic medical examination and treatment of the patients with chronic tonsillitis.

3 day:

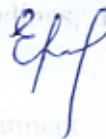

1. Methods of hearing investigation (objective and subjective).
2. Vestibular function tests, their practical importance.
3. Otitis externa. Clinical findings, diagnostics, treatment.
4. Acute purulent otitis media. Clinical findings, diagnostics, treatment.
5. Mesotympanic otitis media. Clinical findings, diagnostics, treatment.
6. Epitympanic otitis media. Clinical findings, diagnostics, treatment.
7. Ménière's disease, clinical findings, differential diagnosis, treatment.
8. Otosclerosis. Clinical findings, diagnostics, treatment.
9. Sensorineural hearing loss, etiology, clinical findings and treatment.
10. Labyrinthitis: routs of contagion, clinical findings, and diagnostics.
11. Otogenic intracranial complications. Clinical findings, diagnostics, differential diagnostics, treatment.

4 day:

1. Acute laryngitis. Clinical findings, diagnostics, treatment
2. Acute laryngeal stenosis, etiology, diagnostics. Methods of treatment.
3. Foreign bodies of the larynx, trachea. Methods of foreign bodies removal.
4. Chronic laryngitis. Clinical findings, diagnostics, treatment.
5. Benign laryngeal tumors. Clinical findings, diagnostics, treatment.
6. Malignant tumors of the larynx. Clinical findings, diagnostics, treatment.

Students may propose other essay topics.
