

**List of practical training and lectures  
on the nervous and neurosurgical diseases for the 4<sup>th</sup> year students of faculty of  
foreign students for the 8<sup>th</sup> semester 2025-2026 academic year  
Specialty - General Medicine**

*Practical Classes*

<b>№ topic</b>	<b>Topics</b>
TOPIC 1	Methods for assessing neurological status. Medical history of a patient with a neurological disease. Making topical and clinical diagnoses
TOPIC 2	Disorders of cerebral circulation. Cerebral infarction. Intracerebral hemorrhage. Subarachnoid hemorrhage
TOPIC 3	Infectious diseases of the nervous system. Meningitis, encephalitis, polio, myelitis. Demyelinating diseases of the central and peripheral nervous system. Acute multiple encephalomyelitis. Multiple sclerosis. Guillain-Barre syndrome
TOPIC 4	Diseases of the peripheral nervous system. Neuropathies, neuralgias, polyneuropathies. Neurological manifestations of osteochondrosis of the spine. Epilepsy and other paroxysmal conditions
TOPIC 5	Degenerative diseases of the nervous system. Parkinson's disease. Amyotrophic lateral sclerosis. Neuromuscular diseases. Myasthenia gravis
TOPIC 6	Vascular diseases of the central nervous system. Brain tumors

*Lectures*

<b>№ topic</b>	<b>Topics</b>	<b>Lecturer</b>
TOPIC 1	Epilepsy and seizures	Professor E.K.Sidorovich
TOPIC 2	Neurological manifestations of osteochondrosis of the spine	Professor E.K.Sidorovich
TOPIC 3	Neuromuscular diseases	Professor E.K.Sidorovich
TOPIC 4	Neurodegenerative diseases	Professor E.K.Sidorovich
TOPIC 5	Dementia	Professor E.K.Sidorovich
TOPIC 6	Neurosurgical treatment of cerebrovascular diseases	Professor A.S.Fedulov

Head of Department,  
Professor

Fedulov A.S.
