

Approved
at the staff meeting of the
Normal Physiology
Department 09.02.2024

Department of Normal Physiology
List of lectures for international students of the
Dentistry Faculty studying in English
Studying year 2023/2024, spring term

№	Subject of the lecture	Dates	Time	Class	Lecturer
1	Introduction. The subject and tasks of Normal Physiology. Body fluids. Physiology of the blood.	19.02	11.50-12.50	109	Haikovich Y.V.
2	Endocrine system. Physiology of bone tissue. Regulation of calcium-phosphorus metabolism.	04.03	11.50-12.50	109	Haikovich Y.V.
3	Bioelectrogenesis. Conduction of excitation along nerve fibers, synaptic transmission.	18.03	11.50-12.50	109	Haikovich Y.V.
4	Physiology of skeletal and smooth muscles. Physiology of maxillofacial region`s muscles.	01.04	11.50-12.50	109	Haikovich Y.V.
5	The concept of the regulation of physiological functions. General physiology of the CNS.	15.04	11.50-12.50	109	Alexandrov D.A.
6	Physiology of autonomic nervous system.	29.04	11.50-12.50	109	Fomenko V.N.
7	Hemodynamics. Blood pressure. Physiological properties and characteristics of the myocardium Hemodynamics.	13.05	11.50-12.50	109	Alexandrov D.A.
8	Regulation of cardiac activity. Mechanisms of regulation of systemic arterial pressure.	27.05	11.50-12.50	109	Alexandrov D.A.

Head of the Department of Normal Physiology,
professor

V.A. Pereverzev
