

APPROVED
at department's meeting
Protocol №11
12.01.2026

LIST OF LECTURES
for international students of the
DENTISTRY Faculty studying in English
studying year 2025/2026, spring term

№	Subject of the lecture	Date	Time	Class#	Lecturer
1	The subject and tasks of Normal Physiology. Fluid media. Physiology of the blood system	9.02	11.30-12.30	101 academic building 18	Haikovich Y.V.
2	Chemical signaling. Basics of information exchange of the cell with the environment	managed independent work			
3	Physiology of endocrine system. Physiology of bone tissue and regulation of calcium-phosphorus metabolism	16.03	11.30-12.30	109 academic building 15	Haikovich Y.V.
4	Electrical signaling. Bioelectrogenesis	managed independent work			
5	Conduction of excitation along nerve fibers, synaptic transmission	13.04	11.30-12.30	107 academic building 15	Haikovich Y.V.
6	Physiology of skeletal and smooth muscles. Features of the muscles of the maxillofacial region	20.04	11.30-12.30	101 academic building 18	Haikovich Y.V.
7	The concept of the regulation of physiological functions. General physiology of CNS	04.05	11.30-12.30	101 academic building 18	Haikovich Y.V.
8	Nervous regulation of autonomic functions	11.05	11.30-12.30	109 academic building 15	Haikovich Y.V.
9	Laws of hemodynamics. Blood pressure. Physiological properties and characteristics of the myocardium	18.05	11.30-12.30	101 academic building 18	Alexandrov D.A.
10	Regulation of cardiac activity. Mechanisms of regulation of systemic arterial pressure	25.05	11.30-12.30	109 academic building 15	Alexandrov D.A.

Head of the Department
MD, professor

I.N. Semenenya
