

Перечень практических навыков по модулю «Периодонтология»
для специальности «Стоматология»

Наименование практического навыка	Форма контроля практического навыка
<ol style="list-style-type: none"> 1. Registration of a periodontal chart in a patient with periodontal disease (gingivitis, periodontitis, endoperodontitis, gum recession). 2. Evaluation of the gum response to mechanical pressure (a symptom of "vasoparesis" of the gum). 3. Sampling of the contents of the pathological gingival pocket. 4. Periodontal probing of the pathological gingival pocket (determination of bleeding, depth, subgingival tartar, condition of gingival attachment). 5. Carrying out hygienic measures in patients with periodontal diseases with the removal of dental deposits in compliance with the principles of antisepsis. 6. Applying a medical bandage to the gum. 7. X-ray detection of signs: osteoporosis, periodontal fissure enlargement, resorption of the intersalveolar septum, periapical X-ray translucency. 8. Determination of the periodontal index (PI, A.L. Russell, 1956, 1967) in a patient with periodontal disease. 9. Determination of the gum recession index (IR, S.Stahl, A.Morris, 1955) in a patient with periodontal disease. 10. Determination of the periodontal sensitivity index (PPI, L.N.Dedova, 2004) in a patient with periodontal disease. 11. Determination of the peripheral circulation index (IPC, L.N.Dedova, 1981) in a patient with periodontal disease. 12. Conducting a vacuum test for the resistance of gingival capillaries (V.I.Kulazhenko, 1960) in a patient with periodontal disease. 13. Carrying out the procedure of therapeutic metered vacuum action on the gum. 14. Determination of the biological width of the periodontium using CBCT. 15. Determination of the complex index of differentiated tooth sensitivity (KIDCHZ, L.N.Dedova, 2004). 16. Carrying out the procedure for expanding the aperture of the periodontal pocket. 17. Injection of a medicinal product under the gum using a turunda. 	<p>Performing a practical skill at the patient's chair (for everyone)</p> <p>Performing a practical skill on simulation equipment (for items 3, 4, 5)</p>
