

REMINDER
on fire safety measures for hostel residents

The following actions are forbidden in the hostel:

1. to smoke, including shisha and electronic cigarettes;
2. to ignite candles, fragrances, aromatic sticks, to use Bengali lights, pyrotechnic and other things with the use of fire;
3. to use electrical appliances in the rooms of residence, including immersion heaters, microwave ovens, toasters, steamers, heater devices, electrical stoves, washing-machines, fairy lights, etc.;
4. to leave plugged in devices unattended, including electrical stoves in the kitchen; TV-sets, notebooks, mobile telephones in rooms, charge devices, etc.;
5. to use damaged (defective) electric plugs, wall outlets, extension leads and other types of defective items;
6. to cover electric lamps (lamps) with paper, fabric and other combustible materials;
7. to plug several electrical appliances simultaneously into one wall outlet;
8. to store flammable and combustible substances (paints and varnishes, alcohol, acetone, glycerin, etc.);
9. to block fire escape routes as well as approaches to the communication facilities and fire-fighting equipment (to the fire faucets and fire-extinguishers);
10. to use electric devices for purposes other than intended.

Actions in case of fire:

1. to dial **101** or **112** immediately and tell the address and point of fire origin, and to inform the hostel attendant on duty;
2. to take possible measures to inform the residents and evacuate them, and to extinguish the fire with the help of primary fire-fighting facilities available;
3. to take actions in accordance with the plan of evacuation in case of fire in the hostel;
4. if it is impossible to leave the room due to a strong smoke-screen in the corridor, you must stay in the room, dial **101** or **112** and tell that you are inside the room (specify the floor and room number), close the gaps at door bases and vent openings with wet fabric, on arrival of the fire brigade signal need of help.

Residents of the hostel **must** memorize the location of evacuation exits and know and follow fire safety rules.
